EDUCATION

MADAN MOHAN MALAVIYA UNIVERSITY OF TECHNOLOGY
B.TECH IN COMPUTER SCIENCE AND ENGINEERING

CGPA: 7.73 | Dec 2021 - June 2025

SARASWATI VIDYA MANDIR, SULTANPUR
HIGH SCHOOL

10th: 90.8% (2018), 12th: 91.4% (2020)

EXPERIENCE

PROPEERS

SOFTWARE ENGINEER | SEPT 2024 – PRESENT

- Built scalable apps using **NextJs, React Native, Node.js, MongoDB, TypeScript**, ensuring performance and maintainability.
- Created a real-time **post and notification system** with **Socket.io**, achieving 250+ DAUs with live content delivery.
- Developed a dynamic **Skill Page** that connects learners to relevant mentors, curated jobs, and personalized learning tracks.
- Integrated secure payments using **Razorpay with webhook handling**, supporting seamless mentor-peer transactions.
- Optimized performance with **caching and lazy loading**, achieving **sub-2s response times** across most routes.
- Collaborated in agile sprints, wrote detailed PRs, and conducted code reviews to maintain high-quality codebases.

PROJECTS

CHAT APP🔗 | REAL-TIME COMMUNICATION PLATFORM

- Developed a real-time chat system with **video calling, messaging, and user profiles** using **WebRTC** and **Socket.io**.
- Implemented **authentication**, and secure data handling with sessions in MongoDB.
- Built the backend using **Node.js and Express** with RESTful APIs for managing chats, users, and media streams.
- Utilized **ngrok** for secure testing of real-time WebRTC features in remote environments.
- Stack: React, WebRTC, Socket.io, Node.js, MongoDB, Express, ngrok

SENTIMENTAL ANALYSIS🔗 | SENTIMENT ANALYSIS MODEL USING MACHINE LEARNING

- Developed a **Sentiment & Emotion Analysis** tool using **SVM** (89% accuracy) and **Naive Bayes** to classify text from reviews, PDFs, and web-scraped data.
- Implemented **TF-IDF, NLP preprocessing**, and visualized insights via interactive dashboards
- Tech Stack: React.js (Frontend), Python (Backend) — Leveraged libraries like NumPy, Pandas, and NLTK for data processing and NLP. Integrated machine learning models (SVM, Naive Bayes) to achieve 89% classification accuracy.

EVENTSPARC🔗 | FULL-STACK EVENT MANAGEMENT SYSTEM

- Built a feature-rich platform to **create, update, and manage events** with user roles (admin, organizer, attendee).
- Integrated **Stripe** for ticket payments, and implemented real-time purchase confirmation with receipts.
- Handled image uploads and documents using **UploadThing**, linked to server storage.
- Implemented server-side rendering (SSR), routing, and backend logic using the **Next.js App Router and API Routes**.
- Stack: Next.js, Stripe, Clerk, UploadThing, MongoDB, TailwindCSS

SKILLS

Languages: C/C++, JavaScript, TypeScript

Frameworks: ReactJS, NextJS, Express, React Native

Databases: MongoDB, MySQL

Tools: Git, WebSocket, WebRTC, Vercel, Azure, Stripe, Clerk, ngrok

CS Concepts: DSA, OOP, OS, DBMS, CN

Competitive: CodeForces, LeetCode, GFG

Certificates: Intro to ML, Modern C++, BharatIntern

ACHIEVEMENTS

- Solved **1000+ DSA problems** on LeetCode, Codeforces, and GFG.
- Elite Certificate: NPTEL Modern C++ (IIT Kharagpur).
- Top 5%: NPTEL Intro to ML (IIT Madras).
- 200+ day LeetCode streak, peak rating: **1656**.
